A Curriculum Whāriki of Multimodal Literacies

Wadestown Kindergarten’s Centre of Innovation Research

Final Research Report prepared for the Ministry of Education

Teacher researchers: Yvette Simonsen, Mandy Blake, and André La Hood
Research associates: Maggie Haggerty and Linda Mitchell
Senior teacher: Lynette Wray

February 2009
Acknowledgements

Wadestown Kindergarten was privileged to be chosen as one of six early childhood centres to participate in the third round of the Ministry of Education’s Centre of Innovation (COI) project. This project saw the kindergarten entering into a three-year research project investigating the impact of multimodal literacies on teaching and learning.

This journey has seen us focusing on an innovation and interest of ours. We are grateful that we have been given an opportunity to explore our interest and ideas around multiple literacies in more depth. This journey has been an exciting one, and one that by no means could we have travelled on our own. We are grateful for the huge support we have received. So we would like to acknowledge and thank a number of people.

First and foremost we would like to acknowledge our kindergarten community, the children, families, and whānau. Without you all we would not be here! We really enjoy working and learning with and alongside you. Your input is invaluable and we are truly privileged to have worked with you for this kindergarten. We thank all the children who remind us daily that there are so many ways to learn and endless possibilities for learning.

Our case study children and their families:

Ben Stirling—David and Jane; Kate Nicholls—Andy and Lucy; Ben Morton—Andrea and James; Heather Miller—Catherine and Scott; Jonathan Crowe—Michael and Angela; Miro Macdonald—Alex Oliver and Iain Macdonald. We thank you for letting us into your lives, to observe and follow your children, for the insights you offered and the invaluable contributions you have made to our developing ideas and the project.

To the advisory group—Amanda Coulston (general manager, Wellington Kindergartens), Sophie Alcock (COI co-ordinator), Huinga Jackson-Greenland (Te Kura Māori, VUW), Ali Spencer (Wadestown Kindergarten parent), and Nikki Shaker (Wadestown Kindergarten parent), for your initial critique of our methodology and research plan, and your guidance and recommendations.

To the parents who have participated and represented parents on our research team: Ali Spencer, Alex Oliver, Nikki Shaker. Thank you for your ideas, the insights and parental voice you have offered to the project. To Nikki and Nemir Shaker, for your IT expertise, getting us up and running effectively and for helping us, whenever we needed it, often at the drop of a hat!

Susan Handisides, from the Wellington Region Kindergarten Association (WRKA). Thank you for your accounting skills, for all the number crunching you did and for managing the finances of our project.

To Anne Meade, thank you for your continual support to us as individuals and to the project. For the time you have taken to visit, discuss, and comment on our developing ideas, for your active advice, direction, insight, and guidance we are so grateful.

To Ministry of Education staff, and all the other round three COI participants, thank you for your collegial support and encouragement. Having this network of support has been crucial, and at times a god-send! We hope to maintain our networks with you as we move forward from being a
COI. Margaret Carr for your insightful “droplets” of knowledge that spurred us on, challenged our thinking, and progressed our ideas. Thank you!

NZCER and VUWCE, thank you for your support. A special thanks to Christine Williams (NZCER) for your administration support, document formatting, organising transcripts, and orchestrating travel arrangements, always available to help, nothing seemed too difficult for you! Thank you! To Cathy Wylie (NZCER) for your careful critique, useful suggestions, and support throughout the project. To Sophie Alcock (VUWCE) for your support in our initial stages of application, for the thought-provoking readings you alerted us to and your enthusiastic support. To both NZCER and VUWCE librarians for their responsiveness in obtaining readings when we needed them.

## Acknowledgements

## Executive summary

What does multimodal communicative competence mean in an early childhood setting? **Error! Bookmark not defined.**

How do multimodal literacies interact and support each other at individual, interpersonal and community levels? **Error! Bookmark not defined.**

The role of people, places and practices in mediating children’s use of multimodal literacies **Error! Bookmark not defined.**

## Implications

- **Notions of literacy** **Error! Bookmark not defined.**
- **Literacies within family contexts** **Error! Bookmark not defined.**
- **Cultural literacy** **Error! Bookmark not defined.**
- **Teachers as enquirers** **Error! Bookmark not defined.**

## 1. Introduction

Aims and rationale **Error! Bookmark not defined.**

Wadestown Kindergarten **Error! Bookmark not defined.**

Research questions **Error! Bookmark not defined.**

Outline of the report **Error! Bookmark not defined.**

## 2. Methodology

Participatory action research **Error! Bookmark not defined.**

Roles and relationships within the research project **Error! Bookmark not defined.**

- **Research group** **Error! Bookmark not defined.**
- **Advisory group** **Error! Bookmark not defined.**
- **Pedagogical discussion group** **Error! Bookmark not defined.**

Data collection **Error! Bookmark not defined.**

- **Case studies of six children** **Error! Bookmark not defined.**
- **Parent sessions** **Error! Bookmark not defined.**
- **Video recordings and analysis of curriculum events** **Error! Bookmark not defined.**
- **Interviews** **Error! Bookmark not defined.**
- **Focus group discussion** **Error! Bookmark not defined.**
- **Pedagogical documentation and teachers’ evaluative conversations** **Error! Bookmark not defined.**

Ethics **Error! Bookmark not defined.**

Data analysis **Error! Bookmark not defined.**

Limitations of the study **Error! Bookmark not defined.**
3. What does multiliterate communicative competence mean in an early childhood education setting?

Modes and their affordances

The case of digital literacy

Conclusion

4. How do multimodal literacies interact and support each other at individual, interpersonal, and community levels?

Section one: Foregrounding the affordances of drawing in the curriculum whāriki: James, Noah, and Miro

Section two: Foregrounding the affordances of drama in the early childhood curriculum: Ben, Heather, and companions

Conclusion

Section three: Galvanising multimodality in the early childhood curriculum

Diary of a multimodal clown

Conclusion

5. The role of people, places, and practices in mediating children’s use of multimodal literacies

Affording teachers

Relationships pedagogy

Children’s relationships with each other

Relationships with families/whānau and community

Parents and whānau contributing to the education programme

Parents interpreting children’s learning and development

Literacies within family contexts

Environments that afford

Conclusion

6. Insights into multimodal literacies: research team reflections

Affordances of pedagogical documentation

Affordances of reading and writing

Teacher as enquirer

Research team reflections

Yvette

Mandy

André

Lynette

Maggie

Linda

Conclusion

7. Conclusion
