CONFIDENTIALITY:
All information collected in this study will be treated confidentially. At no time will you, other individuals, or your school be identified when reporting results from this study.
Your school has agreed to participate in TIMSS 2006/07, a large international study of student learning in mathematics and science in more than 60 countries around the world. Sponsored by the International Association for the Evaluation of Educational Achievement (IEA), TIMSS (Trends in International Mathematics and Science Study) is measuring trends in student achievement and studying differences in national education systems in order to help improve the teaching and learning of mathematics and science worldwide.

As part of the study, students in a national sample of Year 5 classes in New Zealand will complete the TIMSS mathematics and science tests. This questionnaire is addressed to teachers who teach mathematics and/or science to these students, and seeks information about teachers’ academic and professional background, instructional practices, and attitudes toward teaching mathematics and/or science. As a teacher of the students in one of these sampled classes, your responses to these questions are very important in helping to describe mathematics and science education in New Zealand.

Some of the questions in this questionnaire refer specifically to students in the “TIMSS class.” This is the class that is identified on the cover of this questionnaire, and that will be tested as part of TIMSS 2006/07 in your school. If you teach some but not all of the students in the TIMSS class, please think only of the students that you teach when answering these class-specific questions. It is important that you answer each question carefully so that the information that you provide reflects your situation as accurately as possible.

Please select a time and place where you will be able to complete this questionnaire without being interrupted. This should require no more than 45 minutes. To make it as easy as possible for you to respond, most questions may be answered simply by ticking the appropriate circle.

Once you have completed the questionnaire, place it in the return envelope provided and return it to your School Coordinator. The School Coordinator will return all the TIMSS materials to the national centre in Wellington.

Notes: Definition of Year 5

For the purpose of TIMSS the target educational level is Grade 4 or in New Zealand’s case Year 5. For the purpose of this study, Year 5 is the academic class level equivalent to the old “standard 3”. Year 5 can also refer to the number of years students have been in the education system rather than a level of schooling. For example, some Year 5 students may be in a schooling level equivalent to the old standard 2. To ensure national-level comparability, Year 5 students are those students who will most likely begin secondary school (Year 9/Form 3) in 2010.

Thank you very much for the time and effort you have put into responding to this questionnaire.
Teacher Background Information

1. How old are you?  
   **Tick one circle only**
   - Under 25  
   - 25–29  
   - 30–39  
   - 40–49  
   - 50–59  
   - 60 or older

2. Are you female or male?  
   **Tick one circle only**
   - Female  
   - Male

3. By the end of this school year, how many years will you have been teaching altogether?  
   **Number of years you have taught**

4. Do you have a current practising teaching certificate?  
   **Tick one circle only**
   - No  
   - Yes

5. What is the highest level of formal education you have completed?  
   **Tick one circle only**
   - Finished a College of Education diploma (primary teaching)  
   - Finished a Bachelor's degree  
   - Finished a post-graduate degree programme or higher (e.g., Bachelor’s Honours, Master's, PhD)

6. A. During your post-secondary education, what was your major or main area(s) of study?  
   **Tick one circle for each row**
   - No  
   - Yes
   a) Education - Primary  
   b) Education - Secondary  
   c) Mathematics  
   d) Science  
   e) Other

B. If your major or main area of study was education, did you have a specialisation in any of the following?  
   **Tick one circle for each row**
   - No  
   - Yes
   a) Mathematics  
   b) Science  
   c) Language/reading  
   d) Other subject
About Your School

7 How often do you have the following types of interactions with other teachers?

Tick one circle for each row

Daily or almost daily
1-3 times per week
2 or 3 times per month
Never or almost never

a) Discussions about how to teach a particular concept
b) Working on preparing instructional materials
c) Visits to another teacher’s classroom to observe his/her teaching
d) Informal observations of my classroom by another teacher

8 Thinking about your current school, indicate the extent to which you agree or disagree with each of the following statements.

Tick one circle for each row

Disagree a lot
Disagree
Agree
Agree a lot

a) This school is located in a safe neighbourhood
b) I feel safe at this school
c) This school’s security policies and practices are sufficient

9 In your current school, how severe is each problem?

Tick one circle for each row

Serious problem
Minor problem
Not a problem

a) The school building needs significant repair
b) Classrooms are overcrowded
c) Teachers do not have adequate workspace outside their classroom
d) Materials are not available to conduct experiments or investigations

10 How would you characterise each of the following within your school?

Tick one circle for each row

Very low
Low
Medium
High
Very high

a) Teachers’ job satisfaction
b) Teachers’ understanding of the school’s curricular goals
c) Teachers’ degree of success in implementing the school’s curriculum
d) Teachers’ expectations for student achievement
e) Parental support for student achievement
f) Parental involvement in school activities
g) Students’ regard for school property
h) Students’ desire to do well in school
How well prepared do you feel you are to teach the following mathematics topics?

**A. Number**

<table>
<thead>

**About Teaching Mathematics**

Page 5
Teaching Mathematics to the TIMSS Class

Questions 12-26 refer to the TIMSS class. Remember, “the TIMSS class” is the class which is identified on the cover of this questionnaire, and which will be tested as part of TIMSS 2006/07 in your school.

Do you teach mathematics to the TIMSS class (or students) being tested? 

Tick one circle only

Yes | No

If No, please go to question 27

12

A. How many students are in the TIMSS class for mathematics?

Write in the number of students

B. How many students in Question 12A are in Year 5?

Write in the number of Year 5 students

13

How many minutes per week do you teach mathematics to the Year 5 students in the TIMSS class?

Write in the number of minutes per week

14

A. Do you use a textbook(s) in teaching mathematics to the Year 5 students in the TIMSS class (including the “Figure It Out” series)?

Tick one circle only

Yes | No

If No, please go to question 15

B. How do you use a textbook(s) in teaching mathematics to the Year 5 students in the TIMSS class?

Tick one circle only

As the primary basis for my lessons

As a supplementary resource

15

In a typical week of mathematics lessons for the Year 5 students in the TIMSS class, what percentage of time do students spend on each of the following activities?

Write in the percent

a) Reviewing homework

b) Listening to lecture-style presentations

c) Working on problems with your guidance

d) Working on problems on their own without your guidance

e) Listening to you re-teach and clarify content/procedures

f) Taking tests or quizzes

g) Participating in classroom management tasks not related to the lesson’s content/purpose (e.g., interruptions and keeping order)

h) Other student activities

Total

The total should add to 100%

No | Yes

If No, please go to question 27
16. Are the Year 5 students in the TIMSS class permitted to use calculators during mathematics lessons?

<table>
<thead>
<tr>
<th>Tick one circle only</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes, with unrestricted use -</td>
</tr>
<tr>
<td>Yes, with restricted use -</td>
</tr>
<tr>
<td>No, calculators are not permitted -</td>
</tr>
</tbody>
</table>

*If No, please go to question 18*

17. How often do the Year 5 students in the TIMSS class use calculators in their mathematics lessons for the following activities?

<table>
<thead>
<tr>
<th>Tick one circle for each row</th>
</tr>
</thead>
<tbody>
<tr>
<td>Never</td>
</tr>
<tr>
<td>-----------------------------</td>
</tr>
<tr>
<td>a) Check answers -</td>
</tr>
<tr>
<td>b) Do routine computations -</td>
</tr>
<tr>
<td>c) Solve complex problems -</td>
</tr>
<tr>
<td>d) Explore number concepts -</td>
</tr>
</tbody>
</table>

18. A. Do the Year 5 students in the TIMSS class have computer(s) available to use during their mathematics lessons?

<table>
<thead>
<tr>
<th>Tick one circle only</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes -</td>
</tr>
<tr>
<td>No -</td>
</tr>
</tbody>
</table>

*If No, please go to question 20*

B. Do any of the computer(s) have access to the Internet?

<table>
<thead>
<tr>
<th>Tick one circle only</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes -</td>
</tr>
<tr>
<td>No -</td>
</tr>
</tbody>
</table>

19. In teaching mathematics to the Year 5 students in the TIMSS class, how often do you have students use a computer for the following activities?

<table>
<thead>
<tr>
<th>Tick one circle for each row</th>
</tr>
</thead>
<tbody>
<tr>
<td>Never</td>
</tr>
<tr>
<td>-----------------------------</td>
</tr>
<tr>
<td>a) Discover mathematics principles and concepts -</td>
</tr>
<tr>
<td>b) Practise skills and procedures -</td>
</tr>
<tr>
<td>c) Look up ideas and information -</td>
</tr>
</tbody>
</table>
When teaching mathematics to the Year 5 students in the TIMSS class, how often do you usually ask them to do the following?

Tick one circle for each row

<table>
<thead>
<tr>
<th></th>
<th>Never</th>
<th>Some lessons</th>
<th>About half the lessons</th>
<th>Every or almost every lesson</th>
</tr>
</thead>
</table>

a) Practise adding, subtracting, multiplying, and dividing without using a calculator

b) Work on fractions and decimals

c) Measure things in the classroom and around the school

d) Make tables, charts, or graphs

e) Learn about shapes such as circles, triangles, rectangles, and cubes

f) Write equations for word problems

g) Explain their answers

h) Relate what they are learning in mathematics to their daily life

i) Memorise formulas and procedures

A. By the end of this school year, approximately what percentage of teaching time will you have spent during this school year on each of the following mathematics content areas for the Year 5 students in the TIMSS class?

Write in the percent

The total should add to 100%

a) Number (includes computation with whole numbers, fractions, decimals and number patterns)

b) Geometric Shapes and Measures (includes two- and three-dimensional shapes, length, area and volume)

c) Data Display (includes reading, making, and interpreting tables and graphs)

d) Other, please specify:

Total

B. At which level(s) of Mathematics in the New Zealand Curriculum are most of the TIMSS students currently working (or have been working)?

Tick one circle for each row

<table>
<thead>
<tr>
<th></th>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strand</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

a) Number

b) Measurement

c) Geometry

d) Algebra

e) Statistics
The following list includes the main topics addressed by the TIMSS mathematics test. Choose the response that best describes when the Year 5 students in the TIMSS class have been taught each topic. If a topic was taught half this year but not yet completed, please choose “Mostly taught this year.” If a topic is not in the curriculum, please choose “Not yet taught or just introduced.”

**A. Number**

<table>
<thead>
<tr>
<th>Topic</th>
<th>Mostly taught this year</th>
<th>Mostly taught before this year</th>
<th>Not yet taught or just introduced</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Representing whole numbers using words, diagrams, or symbols</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>b) Whole numbers including place value and ordering</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>c) Computation with whole numbers</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>d) Multiples and factors of numbers</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>e) Estimation with whole numbers</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>f) Problems involving proportions</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>g) Fractions (parts of a whole or a collection, location on a number line)</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>h) Equivalent fractions</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>i) Comparing and ordering simple fractions</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>j) Fractions represented by words, numbers, or models</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>k) Adding and subtracting simple fractions</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>l) Decimal place value including writing decimals using words and numbers</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>m) Adding and subtracting with decimals</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>n) Finding the missing number in a number sentence (e.g., if 17 + ___ = 29, what number would go in the blank to make the number sentence true?)</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>o) Model simple situations involving unknowns with expressions or number sentences</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>p) Extending patterns and finding missing terms in them</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>q) Describing relationships between adjacent terms in a sequence</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>r) Generating pairs of numbers following a given rule (e.g., multiply the first number by 3 and add 2 to get the second number)</td>
<td></td>
<td></td>
<td>○</td>
</tr>
<tr>
<td>s) Finding a rule for a relationship given some pairs of numbers which satisfy the relationship</td>
<td></td>
<td></td>
<td>○</td>
</tr>
</tbody>
</table>
# TIMSS Mathematics Test

The following list includes the main topics addressed by the TIMSS mathematics test. Choose the response that best describes when the Year 5 students in the TIMSS class have been taught each topic. If a topic was taught half this year but not yet completed, please choose “Mostly taught this year.” If a topic is not in the curriculum, please choose “Not yet taught or just introduced.”

<table>
<thead>
<tr>
<th>Topic</th>
<th>Most taught before this year</th>
<th>Mostly taught this year</th>
<th>Not yet taught or just introduced</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>B. Geometric Shapes and Measures</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>a) Measuring and estimating lengths</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b) Parallel and perpendicular lines</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c) Comparing angles by size and drawing angles (e.g., a right angle, angles larger or smaller than a right angle)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d) Elementary properties of common geometric shapes</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>e) Recognising relationships between three-dimensional shapes and their two-dimensional representations</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>f) Calculating areas and perimeters of squares and rectangles of given dimensions</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>g) Finding areas by covering with a given shape or counting squares</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>h) Estimating areas and volumes</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>i) Using informal coordinate systems to locate points in a plane</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>j) Figures with line symmetry</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>k) Reflections and rotations</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>C. Data Display</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>a) Reading data from tables, pictographs, bar graphs, or pie charts</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b) Comparing information from related data sets, (e.g., given graphs showing the favourite flavours of ice cream in different classes, identify the class with chocolate as the most popular flavour)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c) Using information from data displays to answer questions that go beyond directly reading the data displayed (e.g., by performing computations, drawing conclusions and making predictions)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d) Comparing and matching different representations of the same data</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>e) Organising and displaying data using tables, pictographs, bar graphs, or pie charts</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
23. Do you assign mathematics homework to the Year 5 students in the TIMSS class?

Tick one circle only:  
- No
- Yes

If No, please go to question 26.

24. How often do you usually assign mathematics homework to the Year 5 students in the TIMSS class?

Tick one circle only:
- Every or almost every lesson
- About half the lessons
- Some lessons

25. When you assign mathematics homework to the Year 5 students in the TIMSS class, about how many minutes do you usually assign? (Consider the time it would take an average student in your class.)

Tick one circle only:
- Fewer than 15 minutes
- 15-30 minutes
- 31-60 minutes
- 61-90 minutes
- More than 90 minutes

26. In your view, to what extent do the following limit how you teach mathematics to the TIMSS class?

Tick one circle for each row:

- A lot
- Some
- A little
- Not at all
- Not applicable

a) Students with different academic abilities
b) Students who come from a wide range of backgrounds (e.g., economic, language)
c) Students with special needs (e.g., hearing, vision, speech impairment, physical disabilities, mental or emotional/psychological impairment)
d) Uninterested students
e) Disruptive students

27. A. In the past two years, have you participated in professional development in any of the following?

Tick one circle for each row:

- No
- Yes

a) Mathematics content
b) Mathematics pedagogy/instruction
c) Mathematics curriculum
d) Integrating information technology into mathematics
e) Improving students’ critical thinking or problem solving skills
f) Mathematics assessment

B. Have you ever participated in these specific professional development projects?

Tick one circle:

- No
- Yes

a) Early Numeracy Project (for Years 0-3)
b) Advanced Numeracy Project (for Years 4-6)
### About Teaching Science

**How well prepared do you feel you are to teach the following science topics?**

*Tick one circle for each row*

<table>
<thead>
<tr>
<th>Not well prepared</th>
<th>Somewhat prepared</th>
<th>Very well prepared</th>
<th>Not applicable</th>
</tr>
</thead>
</table>

#### A. Life Science

a) Major body structures and their functions in humans and other organisms (plants and animals)  
   ![Circle options](o-o-o-o)

b) Reproduction and development in plants and animals (passing on of general characteristics; life cycles of familiar organisms)  
   ![Circle options](o-o-o-o)

c) Physical features, behaviour, and survival of organisms living in different environments  
   ![Circle options](o-o-o-o)

d) Relationships in a living community (e.g., simple food chains, predator-prey relationships)  
   ![Circle options](o-o-o-o)

e) Changes in environments (effects of human activity, pollution and its prevention)  
   ![Circle options](o-o-o-o)

f) Human health (e.g., transmission/prevention of communicable diseases, signs of health/illness, diet, exercise)  
   ![Circle options](o-o-o-o)

#### B. Physical Science

a) Classification of objects/materials based on physical properties (e.g., mass, shape, volume, colour, hardness, texture, heat/electrical conductivity, magnetic attraction)  
   ![Circle options](o-o-o-o)

b) Forming and separating mixtures  
   ![Circle options](o-o-o-o)

c) States of matter (solids, liquids, gases) and differences in their physical properties (shape, volume), including changes in state of matter by heating and cooling (melting, freezing, boiling, evaporating, condensation)  
   ![Circle options](o-o-o-o)

d) Familiar changes in materials (e.g., decaying of animal/plant matter, burning, rusting, cooking)  
   ![Circle options](o-o-o-o)

e) Common energy sources/forms and their practical uses (e.g., wind, sun, electricity, burning fuel, moving water, food)  
   ![Circle options](o-o-o-o)

f) Light (e.g., sources and behaviour)  
   ![Circle options](o-o-o-o)

g) Electrical circuits  
   ![Circle options](o-o-o-o)

h) Properties of magnets  
   ![Circle options](o-o-o-o)

i) Forces that cause objects to move (e.g., gravity, push/pull forces)  
   ![Circle options](o-o-o-o)

#### C. Earth Science

a) Features of Earth's landscape (e.g., mountains, plains, rivers, deserts)  
   ![Circle options](o-o-o-o)

b) Water on Earth (location, types, and movement)  
   ![Circle options](o-o-o-o)

c) Air (composition, proof of its existence, uses, and importance for supporting life)  
   ![Circle options](o-o-o-o)

d) Common features of Earth's landscape (e.g., mountains, plains, rivers, deserts) and relationship to human use (e.g., farming, irrigation, land development)  
   ![Circle options](o-o-o-o)

e) Weather conditions from day to day or over the seasons  
   ![Circle options](o-o-o-o)

f) Fossils of animals and plants (age, formation)  
   ![Circle options](o-o-o-o)

g) Earth's solar system (planets, sun, moon)  
   ![Circle options](o-o-o-o)
Teaching Science to the TIMSS Class

Questions 29-40 refer to the TIMSS class. Remember, “the TIMSS class” is the class which is identified on the cover of this questionnaire, and which will be tested as part of TIMSS 2006/07 in your school.

Do you teach science to the TIMSS class (or students) being tested?

Tick one circle only

If No, please go to question 41

29

A. How many students are in the TIMSS class for science?

Write in the number of students

B. How many students in Question 29A are in Year 5?

Write in the number of Year 5 students

30

Is science taught mainly as a separate subject (i.e., not integrated with other subjects) to the Year 5 students in the TIMSS class?

Tick one circle only

31

A. Do the Year 5 students in the TIMSS class have computer(s) available to use when you are teaching science?

Tick one circle only

If No, please go to question 33

B. Do any of the computer(s) have access to the Internet?

Tick one circle only

32

In teaching science to the Year 5 students in the TIMSS class, how often do you have students use a computer for the following activities?

Tick one circle for each row

a) Do scientific procedures or experiments

b) Study natural phenomena through simulations

c) Practise skills and procedures

d) Look up ideas and information

33

A. Do the Year 5 students in the TIMSS class have computer(s) available to use when you are teaching science?

Tick one circle only

If No, please go to question 33

B. Do any of the computer(s) have access to the Internet?

Tick one circle only

34

In teaching science to the Year 5 students in the TIMSS class, how often do you have students use a computer for the following activities?

Tick one circle for each row

a) Do scientific procedures or experiments

b) Study natural phenomena through simulations

c) Practise skills and procedures

d) Look up ideas and information

35

A. How many minutes per week do you teach science to the Year 5 students in the TIMSS class?

Write in the number of minutes per week

B. Please estimate the number of minutes per week that you spend on science topics with the Year 5 students in the TIMSS class.

Write in the number of minutes per week

36

A. Do the Year 5 students in the TIMSS class have computer(s) available to use when you are teaching science?

Tick one circle only

If No, please go to question 33

B. Do any of the computer(s) have access to the Internet?

Tick one circle only

37

In teaching science to the Year 5 students in the TIMSS class, how often do you have students use a computer for the following activities?

Tick one circle for each row

a) Do scientific procedures or experiments

b) Study natural phenomena through simulations

c) Practise skills and procedures

d) Look up ideas and information

38

A. How many minutes per week do you teach science to the Year 5 students in the TIMSS class?

Write in the number of minutes per week

B. Please estimate the number of minutes per week that you spend on science topics with the Year 5 students in the TIMSS class.

Write in the number of minutes per week

39

A. Do the Year 5 students in the TIMSS class have computer(s) available to use when you are teaching science?

Tick one circle only

If No, please go to question 33

B. Do any of the computer(s) have access to the Internet?

Tick one circle only

40

In teaching science to the Year 5 students in the TIMSS class, how often do you have students use a computer for the following activities?

Tick one circle for each row

a) Do scientific procedures or experiments

b) Study natural phenomena through simulations

c) Practise skills and procedures

d) Look up ideas and information

41

Do you teach science to the TIMSS class (or students) being tested?

Tick one circle only

If No, please go to question 41
33 In teaching science to the Year 5 students in the TIMSS class, how often do you usually ask them to do the following?

Tick one circle for each row

Never

Some lessons

About half the lessons

Every or almost every lesson

a) Observe natural phenomena such as the weather or a plant growing and describe what they see

b) Watch me do a science experiment

c) Design or plan experiments or investigations

d) Do experiments or investigations

e) Work together in small groups on experiments or investigations

f) Read their textbooks or other resource materials

g) Have students memorise facts and principles

h) Give explanations about something they are studying

i) Relate what they are learning in science to their daily lives

j) Work individually at their own pace

34 A. By the end of this school year, approximately what percentage of teaching time will you have spent during this school year on each of the following science content areas for the Year 5 students in the TIMSS class?

Write in the percent
The total should add to 100%

a) Life science (includes environmental issues)

b) Physical science (includes topics in physics and chemistry)

c) Earth science (includes Earth and the solar system)

d) Other, please specify:

Total

B. At which level(s) of Science in the New Zealand Curriculum are most of the TIMSS students currently working (or have been working)?

Tick one circle for each row

Level 4

Level 3

Level 2

Level 1

Strand

Living World

Material World

Physical World

Planet Earth & Beyond

35 A. Do you use a textbook(s) in teaching science to the Year 5 students in the TIMSS class?

Tick one circle only

Yes

No

If No, please go to question 36

B. How do you use a textbook(s) in teaching science to the Year 5 students in the TIMSS class?

Tick one circle only

As the primary basis for my lessons

As a supplementary resource
The following list includes the main topics addressed by the TIMSS science test. Choose the response that best describes when the Year 5 students in the TIMSS class have been taught each topic. If a topic was taught half this year but not yet completed, please choose “Mostly taught this year.” If a topic is not in the curriculum, please choose “Not yet taught or just introduced.”

<table>

### C. Earth Science

a) Rocks, minerals, sand, and soil

b) Water on Earth (location, types, and movement)

c) Air (composition, proof of its existence, uses, and importance for supporting life)

d) Common features of the Earth’s landscape (e.g., mountains, plains, rivers, deserts) and relationship to human use (e.g., farming, irrigation, land development)

e) Use and conservation of Earth’s natural resources

f) Earth’s water cycle (water flowing in rivers from mountains to sea, cloud formation and precipitation)

g) Weather conditions from day to day or over the seasons

h) Fossils of animals and plants (age, formation)

i) Earth’s solar system (planets, sun, moon)

j) Earth’s rotation on its axis (e.g., day and night, appearance of shadows)
37. Do you assign science homework to the Year 5 students in the TIMSS class?

\[\text{No} \quad \text{Yes}\]

Tick one circle only - - - -

If No, please go question 40

38. How often do you usually assign science homework to the Year 5 students in the TIMSS class?

\[\text{Every or almost every lesson} \quad \text{About half the lessons} \quad \text{Some lessons}\]

Tick one circle only

39. When you assign science homework to the Year 5 students in the TIMSS class, about how many minutes do you usually assign? (Consider the time it would take an average student in your class.)

\[\text{Fewer than 15 minutes} \quad \text{15-30 minutes} \quad \text{31-60 minutes} \quad \text{61-90 minutes} \quad \text{More than 90 minutes}\]

Tick one circle only

40. In your view, to what extent do the following limit how you teach science to the TIMSS class?

\[\text{A lot} \quad \text{Some} \quad \text{A little} \quad \text{Not at all} \quad \text{Not applicable}\]

Tick one circle for each row

41. In the past two years, have you participated in professional development in any of the following?

\[\text{Science content} \quad \text{Science pedagogy/instruction} \quad \text{Science curriculum} \quad \text{Integrating information technology into science} \quad \text{Improving students' critical thinking or inquiry skills} \quad \text{Science assessment}\]

Tick one circle for each row

Yes No
